

little right to occupy any part of the Philippine islands as they have to occupy New York. Manila and the Philippine islands, they point out, are now United States territory."

Ash Fork Society Event.

A waltzing contest between two couples at Ash Fork last Saturday morning furnished amusement for some of the passengers on the east bound train during the few minutes stop for breakfast. The contest began at 1 a. m., and at 9 a. m. was still on. One of the "lady" dancers was of African descent and the other was a Mexican senorita. The former seemed as fresh as a daisy and good for several hours longer as did her partner, but the poor senorita was very weak, indeed, and her strong armed partner was growing that way himself from holding her up. There was \$150 up on the result of the contest, the winners to get the money. The "ladies" were dressed decollete and the men were stripped to their gauze undershirts which were wet with perspiration. Altogether it was a hot contest, and the chances are that the colored lady and her partner came out winners.

THE TUBA CITY TROUBLE.

All Parties Concerned in Court on Monday.

Deputy Sheriff Bush returned from Tuba City Sunday bringing in Elwin E. Rogers, the Indian farmer, who has been making it uncomfortable for the Mormon settlers at Tuba City.

Rogers, whose official title is additional farmer to the Moqui Indians, drove the settlers from their lands, destroying their crops, and gave the lands to the Indians.

The trial was held Monday afternoon before Justice of the Peace Milligan. A jury was demanded by the defendant who acted as his own attorney. The district attorney appearing for the territory. The trial was interesting to the spectators and a number of amusing incidents occurred.

The jury returned a verdict of guilty, and Justice of the Peace Milligan fined Mr. Rogers \$300 and six months in jail.

The case was appealed, Rogers giving bond in the sum of \$1,000 to appear at the next term of district court.

The great exposition now in progress at Omaha presents a rare opportunity for the effective dissemination of matter descriptive of the resources, advantages and beauties of Arizona. Flagstaff proposes to avail herself of this opportunity, and her unrivalled scenic attractions, her lumber and stock growing interests and her matchless climate will be fully shown up in an artistic little brochure which will be issued by the SUN office sometime next month.
